

Lane Workforce Partnership Workforce System Year-End Performance Report

July 1, 2021 - June 30, 2022

System performance partners include:

- Department of Human Services
- Lane Community College
- Lane Workforce Partnership
- Oregon Employment Department
- Vocational Rehabilitation Services

Introduction:

Lane Workforce Partnership (LWP) is the designated local Workforce Development Board for Lane County Oregon. The local board is charged with making targeted investments in the community utilizing funding in line with its mission: *To meet the workforce needs of employers and individuals through partnership and innovation.*

This report is a compilation of outcomes achieved through two primary investments in Lane County: 1) Adult and Dislocated workforce services; and 2) At-Risk Youth/Young Adult programs.

WorkSource Lane is the primary location in which Lane Workforce Partnership invests federal funds to deliver employment services to adults and dislocated workers. Lane Workforce Partnership Board has distributed \$1,400,979.54 to Lane County Health and Human Services for the period of July 1, 2021 through June 30, 2022 for program services throughout Lane County.

In addition to the funds invested by Lane Workforce Partnership, the following partners invest funds and resources each year through a committed partnership to create a strong workforce system for Lane County:

- Department of Human Services
 - Self-sufficiency Programs
 - Vocational Rehabilitation Services
- Lane Community College
- Oregon Employment Department

LWP contracts with local youth service providers to serve at-risk youth and young adults in Lane County. The primary focus of these investments is to create or expand programs that will increase the graduation rates, connect youth to higher education opportunities, and expand work experience opportunities. LWP invested \$897,098.20 in federal funds targeted to serving at-risk youth through contracts with the following providers:

- Connected Lane County (Bethel School District, Eugene 4J School District, Looking Glass, South Lane)
- Lane County Department of Youth Services
- Marcola School District

During the development of the 2020-2024 local strategic plan, specific goals and strategic objectives were developed to align the work of the LWP with the work of Oregon Workforce and Talent Development Board within the context of Lane County's local economic and workforce environment.

Year-End Performance Report July 1, 2021 – June 30, 2022

This report serves as documentation of the effectiveness of workforce development services, and the implementation of the Local Strategic Plan. Elements from this report, which demonstrate the effectiveness of the workforce program and investment impacts will be updated semi-annually and posted on the Lane Workforce Partnership's website.

Program Year 2021/2022 Goals and Progress Measures

Goal 1: Prepare workers for self-sufficiency employment in a new and changing economy.

Strategies:

- 1. Analyze worker self-sufficiency data driven by systemic challenges (e.g., housing, childcare, legislative policy).
- 2. Be the community voice for individual workers seeking self-sufficiency employment.
- 3. Broker relationships to create solutions to address identified systemic challenges.
- 4. Build capacity to support innovative solutions by seeking incremental funds for investment.

Progress Measures:

- Employers report that they have a qualified applicant pool
- LWP meets or exceeds goals for entered employment and retention
- Fund development
- Analysis of economic progress will be evidenced in the State of the Workforce Report published in 2020 and 2022

Employers report that they have a qualified applicant pool

Each year, employer satisfaction is measured by the State of Oregon to determine whether employers engaged in WorkSource job matching and referral services feel they received qualified applicants. The number of businesses responding to the survey is low (see the chart on following page). In an effort to be more intentional in our response to Lane County businesses, Lane Workforce Partnership decided to contract out business services to Onward Eugene (Onward). During this program year, Onward was tasked with reaching out to the business community, informing businesses about the services available, and working toward the expansion of the On-the-Job Training program. (The latter was with a targeted interest toward at-risk companies that could be strengthened through workforce training investments.) As a result, Onward expanded awareness to 575 new businesses and developed 19 OJT opportunities. This partnership between Onward and LWP proved to be so successful, that the contract with Onward has been expanded in the new program year to also lean into their expertise to help support the existing and new industry sector partnerships in Lane County.

Business Customer Satisfaction Survey - July 1 2021 - May 31, 2022*

As a result of the services you received at WorkSource		
Lane, did you hire one or more new employee(s)?		
Yes	4 / 12.5%	
No	26 / 81.3%	
Don't Know	2 / 6.3%	
Total Responses:	32	

How satisfied were you with the person(s) you hired?		
Very Satisfied	2 / 100%	
Somewhat Satisfied	0 / 0%	
Somewhat Dissatisfied	0 / 0%	
Very Dissatisfied	0 / 0%	
Total Responses:	2	

Source: Oregon Employment Department, qualityinfo.org

LWP meets or exceeds goals for entered employment and retention

Explanation of this measure: The official definition of Entered Employment Rate is defined as Employed at the Second Quarter After Exit. Those who were employed at the time of exit from our programs may not have documented employment during the second quarter after they exited.

The table below includes all individuals who received any type of career and training services in WIOA programs. Detailed outcome information on LWP training programs can be found further down in this report.

During this past year, the workforce system was emerging from the negative impacts of the COVID-19 Pandemic. During the Pandemic, there was a significant amount of job loss, especially in the hardest hit industries such as Leisure and Hospitality, Retail, and Food Services. This past year, Lane County's official unemployment rate dropped to 3.9%. Economically speaking, unemployment rates at or under 4% are considered to be full employment for the region. This created an interesting challenge for the workforce system's need to gain an understanding of the workforce shortage in Lane County. The disconnect between the low unemployment rate and our performance outcomes is also reflective of this newest workforce challenge with each of our programs performing between 95% and 125% of goal.

THIRD QUARTER PY21 (7/1/21 – 3/31/22) ENTERED EMPLOYMENT RATE FOR THE PRIMARY WIOA PROGRAMS

Program	Goal	Final PY 20	% of Goal
Adult	71.4%	71.0%	99%
DW	71.4%	68.1%	95%
DWG	-	81.3%	-
Youth	63.5%	80%	125%

^{*}June 2022 Customer Satisfaction Survey results are not yet available.

WorkSource Lane High Wage Recruitment Opportunities in Targeted Sectors July 1, 2021 – June 30, 2022

# of Job Listings in iMatchSkills by Targeted Sector (with wages \$12.75 +)		Number Ser	ved*	
	Total		Total	
	Listings:	880	Employers:	171
Health Care:		430		58
Manufacturing (includes food & beverage	e):	112		32
Construction/Mining:		90		48
Information Technology:		81		13
# of job seekers placed in targ	eted indus	tries:	88 indivi	duals
			90 placen	nents

^{*}Based on listing open date and listings with wage equal to or greater than \$12.75 per hour. Employers NAICS code was used to identify targeted sectors.

Job Seekers Placed in Target Industries by Month 7/1/2021 – 6/30/2022 vs. 7/1/2020 – 6/30/2021*

^{*}Hires in targeted sectors are based on the result date of the referrals. Only listings within the targeted sectors and with a wage of \$12.75 or more were included. Listings without wage information or wage \$999 per hour were excluded (NLx listings). There were a total of 18,144 job listings (all sectors) without NLx and 26,939 job listings with NLx. Of these listings, 2,773 were high wage, none of which came through NLx.

Fund Development

RISE Grant	Dept. of Ag.	April 2022	\$1,697,793	Pending

Goal 2: Connect individuals to education, skill-building and employment opportunities in occupations most impacted.

Strategies:

- 1. Invest in training programs, including on-the-job training, apprenticeship and customized training focused on replacement opportunities for youth/young adults in jobs most impacted by retirement and other types of projected worker shortages.
- 2. Analyze the impact of AI/technology on worker displacement.
- 3. Invest in career pathway models.

Progress Measures:

- Training investments (All Partners' Programs)
- State employment data indicates a decrease in replacement openings due to retirements
- Analysis of the impact of Al/technology on worker displacement will be evidenced in the State of the Workforce Report for 2022

<u>Training Investments (All Partners' Programs)</u>

Testimonial:

Sarah has loved to cook as long as she can remember. Her favorite thing to do is elevate seemingly simple dishes to enhance the flavors we love, but also reinvent the rules. For example, she's made some delicious renditions of mac and cheese – her recent favorite being a yellow Thai curry mac and cheese. Her favorite part of the process? Watching people enjoy the food she has made. Sarah cooked professionally in the community for several years, but found it was hard to find a position that allowed her to celebrate the food she created and try new things. Like many in the industry, Sarah also struggled to find a reasonable work/life balance with a backbreaking schedule and stressful work environments. She knew something had to change and felt the need to align more meaning into her work. She stumbled upon Positive Community Kitchen, a local nonprofit that prepares organic healing meals for community members fighting life-threatening illnesses and immediately felt drawn to their mission. She began

volunteering in the kitchens to prepare meals, and realized she hadn't felt so happy working in a kitchen for a very long time. After just several months, she quickly impressed the Executive Director with her skills and energetic spirit. Sarah was offered a position at Positive Community Kitchen, to work as the Program Coordinator and oversee the volunteers and weekly meal preparations. Although she didn't have all of the office skills required of the position, she knew her way around the organization and had bright ideas for future innovations. She happily accepted the position and Positive Community Kitchen set up an On the Job Training plan to help Sarah grow and learn. Using six skills to be learned, Sarah's On the Job Training plan helped her to keep on track in this training, know what to expect, and measure her own progress. This was especially helpful to Sarah, as there was not any written standard operating procedures for this new position at the time. There were parts of Sarah's role, which took longer to fully develop, but she was on the right track in showing initiative and confidence and developing with the team. She started out feeling very unsure of herself and her office abilities, but her OJT plan helped her to stay on track. Soon she was able to proudly say she had mastered delivering and maintaining communication with efficient messaging and content using Canva, MailChimp, Social Media, Client Letter, YLC & Meal4Meal and managing client to volunteer transition and client team support. Today, Sarah helps to oversee the work of 100 active volunteers. She says she feels empowered in her place of work - a new feeling for her. She is most proud of being able to support Positive Community Kitchen from multiple levels, administratively, within the kitchens, and engaging and recruiting volunteers. Her supervisor had this to say, "She has been exercising managerial skills & pushing her trust in the team to hold a steady operation under her leadership. Last week we sent out some beautiful newsletters that she and the rest of our team contributed to, meaning we have officially cross-trained a chef into a Program Coordinator." Sarah says she hopes to be part of Positive Community Kitchen as long as she can and give back to the community.

Workforce Partner Investments July 1, 2021 – June 30, 2022

Department of Human Services – JOBS Program

Measure	Total
# of JOBS Plus placements	8
# of businesses participating in JOBS Plus	8

# of businesses participating in work experience	12

Lane Community College - Title II

Measure	Total
# of individuals achieving an increase in skill gains in reading	26
# of individuals achieving an increase in skill gains in math	22
# of individuals earning a GED	58

Special Projects:

COVID-19 DWG – During times of natural disasters, the federal government may declare the disaster an emergency. Dislocated Worker Grants (DWG) can then be awarded by the Department of Labor (DOL) to assist the disaster area in restoration and recovery. Nation-wide, the COVID-19 Pandemic was declared to be an emergency, which then triggered funding to be allocated to each state and from states to local Workforce Development Boards.

LWP received \$241,680 to assist with employment recovery and \$241,680 to assist with disaster recovery for a total of \$483,362.

The employment recovery Dislocated Worker Grant funds are being used to provide employment and training services to dislocated workers with priority given to those who have lost their jobs because of the COVID-19 Pandemic. The original enrollment goal was set at enrolling 200 individuals into the grant. However, due to lower-than-expected engagement of eligible participants, the goal was lowered to 125. These services are being provided through WorkSource Lane as well as alternate locations, such as the Eugene Public Library.

Final DWG COVID Performance Outcomes:

Enrollment Goal	Enrollment Target to Date	Total Enrolled
125	125	148

Fire DWG –The State of Oregon was awarded a DWG from DOL in response to the devastating wild fires during the summer and early fall of 2020. The purpose of the funds is to assist the impacted communities in Lane County with fire restoration, recovery, and cleanup efforts. LWP has been awarded \$4.9 million in funding, in which we have received the initial increment of \$1.6M with the stipulation that the funds must be expended and initial performance met to receive the balance of the award. LWP has received additional funding of \$327,068 that was re-allocated from other workforce boards, for a total amount of \$1,993,734. The State of Oregon's request to the Department of Labor for an additional increment of funding is pending. LWP is in need of additional funding to continue services to enrolled customers, and is submitting what is referred to as a Gap Fill request to the State of Oregon.

LWP released an application for community stakeholders to request funds which they may use to employ humanitarian workers or work crews whose sole purpose will be to work on projects related to fire restoration, recovery, and clean-up. LWP entered into Service Agreements with:

- McKenzie Community Development Corporation Humanitarian Workers
- Love First Humanitarian Workers
- North West Youth Corps Fire Restoration and Clean-up
- Suulutaag Construction Fire Restoration and Clean-up
- Cascade Relief Both Humanitarian Workers and Fire Restoration and Clean-up

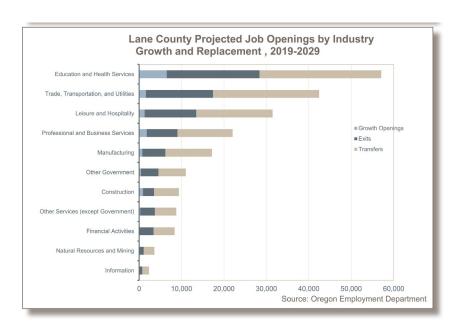

Performance to Date:

Enrollment Goal	Enrollment Target 1st Increment of Funding	Actual Enrollment to Date
200	140	129

State Employment Data Indicates a Decrease in replacement openings due to retirements

Research Impact of Aging/Retiring Workforce

In partnership with Oregon Employment Department's economist, Lane Workforce Partnership staff published the 2020 State of the Workforce Report for Lane County. This report outlines the impact of the aging workforce in Lane County as well as the industries that are expected to have a large number of replacement job openings. Replacement openings are often a result of retirements.

Utilize On-the-Job Training (OJT) and customized training in companies with high retirement projections

WorkSource Lane Personalized Services for Job Seekers in Targeted Industries

	Number Served July 1, 2021 – June 30, 2022
Total number of WorkSource Lane customers who received	
personalized services to support their job search and access to	7,105
talent development and skill training opportunities.	

Goal 3: Prepare our youth for future employment.

Strategies:

- 1. Invest in proven strategies and partner with successful youth programs to better align industry and education to increase student access to work opportunities.
- 2. Be the community voice to improve policy makers understanding/willingness to remove apprenticeship pipeline barriers.

Progress Measures:

- Create and track outcomes for multiple Lane County industry awareness and work-based opportunities for middle/high school and community college students.
- Identify individual sector's apprenticeship barriers and chart progress of measurable results to overcome these barriers.

Connect Industry Workforce Needs to Education – LWP partners with **Elevate Lane County** to coordinate industry awareness for students, teacher externships, and work-based learning opportunities.

# of industry professionals participating in Reach Higher Industry Panels	21
# of WIOA Youth/Young Adults served	233

Testimonial

Moya joined the Navigate program (WIOA Youth/Young Adult Program) while in a period of insecurity around her government benefits and aging out of foster care. While in Navigate, Moya has started a work experience, moved into the St. Vincent de Paul Youth House, engaged in a job shadow, started classes at LCC, completed the DevNW Youth Financial Foundations course and participated in a number of Wonder Wednesday workshops. Moya says this about the program: "Through Navigate, I have received help with accessing public services, employment opportunities, access to community resources and vital housing programs, and general guidance. I feel very supported by the Navigate program. Overall I have had a very positive experience." – Connected Lane County

"Positive experience with the program. My case manager was a constant support and helped me navigate some difficult times." – Autumn

"The program has been very helpful for me to get started in the adult world." - Jennifer

Increase WIOA Youth/Young Adult Paid Work Experience Opportunities

Measure	2021/2022 (July – June)	2020/2021* (July – June)
# of WIOA youth/young adult participating in a work experience	43	41
# of youth/young adult who complete an internship with occupational skill gains and achieve positive evaluations	8	7

^{*} Due to the COVID-19 pandemic and all the restrictions placed on businesses/organizations throughout the program year, it was very difficult to place WIOA youth/young adults in work experiences and internships.

Testimonials

Andrew joined Navigate last spring and had never had job before but was very eager to learn. Andrew started out feeling worried about work but started a basic skills placement to learn employment skills. Andrew blossomed at this work experience and we were able to increase the expectations and skills he was learning to build an internship. In addition to his internship, he has attended Wonder Wednesday workshops, participated in multiple job shadows, attended DevNW Youth Financial Foundations courses, and graduated from Al Kennedy High School. Andrew says that the highlight of being in the program has been having his first paid work experience and that "I used to be scared of everything but it is easier knowing that there are people that can help you." — Connected Lane County

Kelly joined Navigate last summer as an unhoused runaway teen who was in need of basic services, a school engagement plan, and employment experience. Since joining, Kelly now has a safe place to live, has regular medical care, and is working to get her permit. She has been doing Baker Web Academy online and has also engaged in Wonder Wednesday classes and a job shadow with a neurosurgeon. Kelly is very interested in the medical field and starting doing a work experience at Volunteers in Medicine. She thrived there and we were able to transition her to an internship where she learned higher level medical filing systems and continued to build her clinic and customer service skills. Kelly says: "I've learned a lot and it's been a great work experience for me. Working there has taught me how to better communicate with people and also how to act and work in a professional setting. The environment is a great place. I still continue to learn every day and I also earned some work experience which I've never had so that will be amazing for other job opportunities." — Connected Lane County

"I loved my placement at the Eugene Fire & EMS. I have stayed connected and they wrote a letter of recommendation to work for another fire company this summer" – Jabin

Goal 4: Catalyze the community around diversity, equity and inclusion (DEI) to expand workforce leadership and participation opportunities for all.

Strategies:

- 1. Be a catalyst for systemic change that raises DEI to the level of sector strategy.
- 2. Convene an advisory board as a model of DEI leadership.
- 3. Invest in workforce board training to understand unconscious bias and to lead by example.
- 4. Embed DEI in all LWP policies.

Progress Measures:

- Increase service utilization among targeted populations
- All LWP policies will contain DEI and Equity Lens language and requirements
- LWP staff and Board members diversity, equity, and inclusion training as well as the establishment of an advisory board

Every two years, LWP releases a State of the Workforce Report. This report provides readers with information about the current state of Lane County's economy. The 2020 State of the Workforce Report presents information about our economy and the impacts that the COVID-19 Pandemic has had. The report also explores critical issues we are facing today, such as the childcare desert and the gaps in educational achievement and their impacts on our future workforce. In addition, Lane's Workforce Development Board set new goals in our 2020 – 2024 Strategic Plan that focus on Equity and Inclusion. The 2020 State of the Workforce Report explores this topic in terms of women in the workforce and the economic conditions faced by those living in our rural communities.

Per data provided by Shift Bias, diverse organizations have on average 83% higher productivity and 19% higher gross revenue. We also know that on average 57% of employees that leave a company would have stayed if decision-makers had taken the steps to make the company culture more inclusive. Achieving equity means looking at systems that are more likely to negatively impact marginalized groups and addressing them so that everyone in Lane County can thrive. We as a board are focused on this important goal because the board and LWP staff see this goal as part of an effort to help everyone who works, lives, and plays in Lane County feel that they belong and add value to our present and future.

• 2020 State of the Workforce Report

Each year, LWP reviews and updates its policies and procedures to ensure they are current and meet the requirements of federal and state legislation. These policies are also developed to align with the goals set by the Workforce Development Board. Lane Workforce Partnership's current policies and procedures can be found on our website.

• Lane Workforce Partnership Policies

<u>Increase Service Utilization Among Targeted Populations</u>

Targeted Outreach Activities

The Equity and Inclusion Task Team set a priority around increasing outreach activities to underrepresented populations for services available at WorkSource Lane, specifically WIOA training scholarship opportunities. Staff created and implemented the outreach plan.

Vocational Rehabilitation Services Workforce Metrics

Measure	Number Served
Total number served 7/1/21 – 6/30/22	1,620*
Total number entering IPE	1,436**
Total number with Employment Outcome	258***

*Eugene: 896/Springfield: 724 **Eugene: 802/Springfield: 634 ***Eugene: 128/Springfield: 130

"IPE" means an Individualized Plan for Employment. This is a written plan outlining an individual's employment goal, and the services to be provided to reach the goal. An IPE, which is very client specific can take anywhere from 1 day to 5 years to complete depending on the complexity and/or training objectives identified within the plan.

"Employment Outcome" means that the person with a disability has obtained a job, all accommodations are in place, the job is going well, and the individual has maintained that employment for a minimum of 90 days and the job is not expected to end in the foreseeable future.

Increase Services for Women, Veterans, and Minorities

Several years ago, LWP released our equity lens. This lens it designed to help us make decisions about funding, policy, and program design. This past year has been an exceptionally difficult one for women, minorities, and those amongst our most vulnerable populations. We know from data and reports that these communities were the hardest hit by the COVID-19 Pandemic. The 2020 State of the Workforce Report addresses some of these challenges. As we move forward into the new year, Lane Workforce Partnership is focusing on the creation of programs that lift up these populations. The report is also designed to provide information to our community partners so that as they are working on fund development or the creation of new programs, they have the most current information they need to make informed decisions about the constraints women, veterans, and minorities face.

Increase Services for Rural Communities

This past year, LWP submitted two grant proposals that focused on increasing opportunities for those who live in our rural communities. While neither was successful in securing funding, both provide foundational information to help us understand the needs of our rural communities and strategies we can deploy to increase access to services for these residents. LWP will continue to engage our partners in this work. The 2020 State of the Workforce Report addresses the economic challenges of our rural areas, and while the COVID-19 Pandemic has been devastating, it has also presented new opportunities for those who live in rural areas. With the increase in working virtually, the idea that people no longer need to live where they work, but can work where they live is gaining momentum. This momentum is opening doors for our rural communities and presenting opportunities for skill building and employment in occupations that pay well.

Goal 5: Align strategic partnerships to expand our collective capacity to address systemic workforce challenges.

Strategies:

- 1. Continue to invest in sector strategy work.
- 2. Analyze impacts of technology on industry employment and on workforce training.
- 3. Identify and share job skills with current and emerging workforce.
- 4. Analyze, gather, and disseminate projected data about job evolution/changes/growth.
- 5. Be the voice to create understanding of self-sufficient wages in our community.

Progress Measures:

- Annual investments specific to each industry sector
- 2022 State of the Workforce Report will include analysis of technology and artificial intelligence impacts on the workforce as well as job evolution and self-sufficient wage data for Lane County

The \$138,024 investments in Targeted Sectors made during the year show the impact of our collective capacity. The following projects would not have been possible without true community collaboration:

- Bohemia Food Hub received an Oregon Community Foundation (OCF) grant awarded through a Fiscal Sponsorship Agreement with Lane Workforce Partnership.
- Discard Upcycling funding was provided by Business Oregon, the Oregon Cascades West Council of Governments, and Lane County.

• And, the Leading with Cultural Intelligence trainings were launched in partnership with the Technology Association of Oregon.

Targeted Sectors	Funds Expended
Food and Beverage (Bohemia Food Hub skills training)	\$25,000
Food and Beverage (Season to Taste Growing People Sponsorship)	\$15,000
Creative (Discard Upcycling)	\$75,000
Creative (Discard Upcycling Spanish Sewing Course)	\$1,800
ALL (Eugene Chamber Open for Business)	\$4600
ALL (Luna Jimenez Centering Relationships)	\$4224
ALL (TAO - SWV People Community)	\$10,200
ALL (TAO -Leading with Cultural Intelligence)	\$2,200
TOTAL	\$138,024

Continue Sector Strategy Work

Sector Strategies are business led partnerships primarily funded by the Workforce Innovation and Opportunity Act (WIOA). These funds are workforce investments for talent development, job creation, and business competitiveness. Lane County's targeted sectors are: Technology, Food & Beverage Manufacturing, Wood Products, Construction - Aggregate, Creatives and the most recently launched Transportation Sector Strategy initiative. The targeted sectors not only have above average wages for Lane County but are essential to our local economy.

Next Generation Sector Partnerships is an initiative by the Institute for Networked Communities (INC). For several years now, they have closely partnered with our region to develop and curate best practices and tools to support the work of our sector partnerships and those across the country. We are continually learning, evolving and developing strategies, strengthening necessary relationships, and activating initiatives that support the growth and sustainability of our diverse economy. Our focus is to build systems and capacity to ensure businesses have the skilled workforce necessary to innovate and grow, and that the workers and job seekers in the county have the skills to take advantage of employment pathways and opportunities.

Key strategic goals for this partnership:

- Identify our growth edge of strategists and leads;
- Activate cross- sector collaboration opportunities;
- Establish commitments on how we want to continue to measure our success;
- Dive into practices and strategies that haven't been launched or developed yet.
- Be a catalyst for systemic change and elevating the importance of embedding DEI practices in our workforce system.

In January 2022, Lane County was highlighted in the most recent <u>Next Generation Sector Partnership</u> <u>Benchmarking Report</u>. These case profiles are a continuation of their national Benchmarking Project, conducted with support from Ascendium Education Philanthropy. The Benchmarking Project documents the lifecycle of nine regional teams across the nation, telling the stories of their partnerships, their

evolution and their impact. In the 2022 issue, case profiles of Lane County, Oregon, the North State of California and Cape Fear, North Carolina are highlighted.

Technology Sector:

<u>The Technology Association of Oregon</u> (TAO) is the force behind our regional tech industry - supporting entrepreneurs, connecting peers and decision makers, and helping establish the Northwest as a global hub for innovation. They do that through industry promotion, advocacy, talent development, and building professional networks.

Key strategic goals for the Tech sector in Lane County:

- Advocate and drive innovative curriculum in K-12 and higher education;
- Develop programs and initiatives for talent development and retention;
- Increase industry collaboration to make Lane County a top tech hub;
- Create avenues for the tech sector to make localized social impact;
- Engage and support tech and tech enabled companies throughout the Southern Willamette Valley.

Lane Workforce Partnership and TAO have identified the continuous need and interest in the cultural intelligence workshop facilitated by Anna Boyer with Anna Boyer Consulting LLC; Leading with Cultural Intelligence (CQ). The four-week course focuses on topics like: why culture matters, cultural values, CQ assessment results overview, unconscious bias, inclusive leadership, and the development of a CQ action plan. The training includes taking a CQ assessment and two additional follow-up sessions to touch base with participants, offering peer to peer relationship building, and support as they use the tools, knowledge, and skills learned. HR directors and those with hiring authority from a variety of sectors have participated in the program and have provided great reviews and feedback. Future cohorts are being discussed and additional partnerships are expressing interest in collaborating to help cast a wide net in promoting the opportunity and building common language and principles to support healthy recruitment and retention efforts and strategies across sectors and across our region. Lane County Human Resource Association (LCHRA) has committed to offering two cohorts in Program Year 2022-2023 and is in the process of certifying the course so that members and participants can receive Society for Human Resource Management (SHRM) continuing education credits after completion.

In March 2022, the <u>Southern Willamette Valley People Community</u> was launched and led by Co-Chairs and local human resource leaders: Celeste Marshall, President, Reynolds Electric, Missy Matella, Employment Attorney, Watkinson Laird Rubenstein, and Celeste Peterson, Director of People, Palo Alto Software. The TAO SWV People Community aims to provide resources for an individual's professional development and an organization's development of people operations as it evolves. Quarterly events will provide a supportive space to learn and grow through candid, professional conversations, peer-to-peer discussions, and mentorship opportunities.

The group is focused on:

- Workplace Culture
- People Management and Operations discussions
- Equity, Diversity, Inclusion, & Belonging
- Talent Pipeline
- Compliance Obligations

Food and Beverage Manufacturing:

The Lane County Food and Beverage Sector Strategy led by <u>Eugene's Table</u> helps mobilize collaborative development projects, promotes regional products and values, and creates opportunities to share knowledge and resources to solidify Lane County as a hub for diverse food and beverage companies.

Key strategic goals for the Food and Beverage Manufacturing sector in Lane County:

- Develop shared resources for local industry to help start-up businesses, keep and grow existing businesses, and attract new businesses;
- Advance equitable outcomes for BIPOC owned (Black, Indigenous and people of color) and other socio-economically disadvantaged businesses;
- Strengthen the region's brand and amplify marketing for local businesses;
- Build a stronger workforce by aligning curriculum at local high schools and colleges and raising awareness of food and beverage careers;
- Advocate for public policy and regulations that supports industry success. Increase collaboration across the industry.

Every month Eugene's Table distributes a monthly newsletter that offers industry updates, events, news, job openings, and resources. To sign up to receive your monthly industry updates or to learn more, visit Eugene's Table website here.

Eugene's Table, in partnership with Northwest Food Solutions and Knowledge Waits Consulting and sponsored by Lane Workforce Partnership, continues to offer The Growing People program in Lane County. The Growing People program is designed to engage professionals and their companies from across the region in 300 hours of learning, hands on analysis, and problem solving. This program was launched to provide real world education to inspire, inform, engage, and retain aspiring employee leaders from food and beverage manufacturing companies in Lane County. Given the success of the initial cohort(s), subsequent opportunities will continue to be offered in the coming months.

Construction – Aggregate:

The Lane County Construction-Aggregate (C-A) industry consists of a wide range of local commercial-residential contractors and aggregate companies. The industry currently employs 8,082 people. Lane County's total payroll in C-A was \$470,523,613 – the fourth highest county total in the state.

In response to industry demand, Lane Workforce Partnership was asked to convene and facilitate the Lane County Construction-Aggregate Workgroup. This workgroup was formed in January 2016 and has continued to gain attention and participation from industry, education, and community partners. Key strategic goals for the Construction-Aggregate sector in Lane County include:

- Create industry awareness for younger workers;
- Identify/problem-solve workforce issues related to recruitment of an emerging workforce;
- Discuss how to make connections with Lane County Middle/High Schools, Lane Community College (LCC), and collaborations with local workforce agencies;
- Support Career Technical Education (CTE) and expand and promote trade opportunities.

The most significant education-industry partnership project to date has been the McKenzie River Fire Restoration Shed Build. Students from multiple school districts worked with the Blue River Community and local C-A industry sector partners to build replacement sheds for those who lost structures in the

2020 McKenzie River Area wildfires. These 8' X 8' sheds were assembled from kits at the schools and, upon completion, delivered to respective home owner's sites for set-up and roofing. This project was completed in May 2022, with participation from 12 Lane County School districts to build a total of 54 sheds. Click here to view a short documentary film created by Lane County high school students. This film tells the incredible story behind the Future Build Project where students, volunteers, and agencies came together to bring hope to the survivors of the Holiday Farm Fire in the McKenzie River Valley. The McKenzie Fire Restoration Shed Build project will be the model for the future and ongoing Lane County education and C-A industry partnerships to support student work-based opportunities and help make students aware of the multiple trades opportunities.

Transportation:

The Lane County Transportation Sector is made up of a wide range of commercial business entities that employ all levels of related occupations. These businesses support virtually all economic sectors in some form with significant contributions to those directly influencing national economic growth and quality of life concerns – food/beverage distribution, wood products, petroleum, manufacturing operations, infrastructure, refuse management, utilities, construction-aggregate and many more. The transportation industry employs approximately 3,000 people in Lane County and employment is forecasted to increase 7% over the upcoming ten-year period.

In partnership with local industry, LWP helped form the Lane County Transportation Sector in October 2021. The sector identified two immediate industry workforce needs for prioritization:

- Expand CDL truck driver training opportunities by exploring/developing multiple training models, recruit additional training providers to the area, and develop the infrastructure to promote these to the local transportation sector.
- Market and recruit local community college Diesel Technician programs to increase the number of certified mechanics.

In response to the above priorities, LWP and sector partners worked with Lane Community College (LCC) to develop a CDL Theory Class as an option for initial training course requirements. This additional training opportunity allows the transportation industry to enroll students in the LCC Theory course and finish their CDL training requirements with customized on-site/industry specific driving instruction to be done internally by each employer. The transportation sector also helped to recruit an additional CDL training provider to Lane County with expected operation start up to be August 2022. To address the shortage of diesel technicians, the sector is partnering with LCC to increase presentations to local high school students and workforce centers for program promotion and recruitment.

Engage Relevant Agencies and Programs

LWP, as the Local Workforce Development Board has a long history of working with business leaders and community stakeholders to advance and strengthen workforce development in our community to work together on the creation of family-wage jobs, and to face the most pressing challenges threatening the health and wellbeing of Lane County residents.

 The <u>Lane County Community Collaborative</u> is a group of economic and workforce development stakeholders from across Lane County that come together with the goal to better align efforts and resources to effectively meet the needs of our communities and have a positive ripple effect across our region. These monthly meetings are designed to foster rich conversation, relationship building, and collaboration.

• The Lane County Latino a/x Leaders Work Group convened for the first time in June of 2020, in partnership with The Oregon Community Foundation, OCF's Latino Partnership Program, Palo Alto Software, and Lane Workforce Partnership. Each gathering brings together Latino a/x leaders from across the county that work in a variety of sectors and have an assortment of influence. The meetings are structured to inspire and facilitate personal connections and help mobilize community-driven solutions. This initiative is co-facilitated by Dr. José Meléndez, Assistant Professor of Planning for Engaging Diverse Communities at the University of Oregon's School of Planning, Public Policy, and Management.

Goals/Themes (no particular order):

- Community building within this group, our own Latino a/x community, and more broadly
- Creating a sense of belonging
- Jobs and the economy
- Social capital
- Education (Birth and Beyond)
- Leadership and professional development across the entire spectrum
- o Financial literacy and wealth building
- Leadership support

In April of 2021, the group was awarded a \$20,000 dollar grant from the Sociological Initiatives Foundation to research how the Latino community could gain more political representation, influence, and power in Lane County. Centro Latino Americano (recently merged organization with Huerto de La Familia and Downtown Languages) is the fiscal agent, who since the 1970's, has worked to build bridges for a stronger community and becoming the main avenue for the social and civic integration of the Latino population in our region.

The funds will allow an examination as to how the design and structure of local government across different jurisdictions in Lane County, Oregon create institutional system level barriers for Latino leaders who attempt to engage in the various political arenas. These barriers, we hypothesize, prevent the emergence of a political power base for the Latino community, and subsequently perpetuates the disposition that the various access points for engaging with local governments is not meant for them. The research staff is comprised of Latinos from the community as a way to provide them with professional development opportunities. Staff includes: Emma Avalos, Student Success Engagement Organizer at Centro Latino Americano and David Wenzell Nieto, sophomore transfer student at the University of Oregon. The Oregon Community Foundation (OFC) awarded LWG a Capacity Building grant of \$5,000 in 2020 and in Program Year 2021/2022, OCF renewed their financial commitment to help support the efforts of the workgroup. Dr. Meléndez is the lead investigator for this project and the research project will conclude December 2022.

 Oregon Workforce Partnership, the association that represents the nine regional workforce boards in Oregon, presented SB4101 in the 2022 Oregon Legislative session. The Governor's workforce bill, SB 1545, <u>Future Ready Oregon</u>, adopted the policy language from SB4101 in sections 3&4, Prosperity 10,000. Future Ready Oregon originated in the Racial Justice Council's (RJC) Workforce Workgroup, and the package was led by Governor Brown and championed by many partners before the Oregon Legislature's approval in the 2022 Legislature Session. This historic \$200 million-dollar package invests in existing successful programs and in innovative equity-focused solutions to bolster recruitment, retention, and career advancement opportunities for priority populations. Many of the funds will be administered through the Higher Education Coordinating Commission, working with local workforce development boards, community-based and culturally-specific organizations, education & training providers, employers, and communities. Request for Applications are currently out for Prosperity 10,000, Future Ready Oregon funding.

- In the fall of 2021, The Economic Development Administration (EDA) released the ARPA, Good Jobs Challenge, Notice of Funding Opportunity (NOFO) in the amount of \$550 million. This grant is designed to help Americans get back to work by developing and strengthening regional workforce training systems that support the design and implementation of sectoral partnerships that lead to high-quality jobs. Given that Lane County has several established and emerging industries essential to our region, sector, regional partners and stakeholders from across Lane County submitted a proposal for the region. Areas of focus were on the following sectors: Technology, Food and Beverage Manufacturing, Wood Products, Creatives, Construction-Aggregate, Transportation, Health Care, and Biosciences. Our proposal focused on capacity building to support the strategists and backbone organizations and designing programs to activate our public workforce system to better serve underrepresented communities and populations. Partners included: Technology Association of Oregon, Eugene's Table, Associated Oregon Loggers, Oregon Manufacturing Extension Partnership, Delta Sand and Gravel, Tyree Oil, Southern Oregon Sector Partnership, Lane County Medical Society, Oregon Bio, Lane Arts Council, Onward Eugene, AHM Brands, and Lane Community College (Design and Marketing Department). We also received letters of commitment from several industry partners and letters of support from community stakeholders. In addition, due to the cross-regional effects and complexities of the Transportation Sector, Lane County provided a letter of support for the proposal submitted by our colleagues and partners with Southern Oregon Workforce Investment Board who have had great success and advances with their well-established Transportation Sector Strategy initiative.
- Discard Upcycle/Viking Textile Maker Hub (VTMH) has received funding to support, collaborate and engage textile manufacturers, both in Lane County and beyond. Over the last year, VTMH developed a three-track system to generate gig work for local sewists, textile artisans along with offering training in industrial sewing for new and incumbent workers. In addition, VTMH connected with industry partners to better understand the skills they are wanting and VTMH then adapted their training program to meet local needs. The curriculum has been translated into Spanish and they have two bilingual trainers for their Spanish-speaking cohorts. Three industrial walking foot machines and three industrial sergers were purchased with the investment and have been configured into three fully equipped pods, including all tools and notions required for an array of educational offerings. After completing the build-out of the classroom in December 2021 and January 2022, VTHM launched its newest classroom in February 2022. Since that time, three cohorts of students have completed the 48-hour Industrial Sewing Course, including the first one taught in Spanish. In addition to these training sessions, VTMH continues to offer other regular and in-house classes in the classroom, as well as the option for other textile artists to access this space to teach their own classes.

- Partner tour hosted by Onward Eugene and Viking Textile Maker Hub at The Innovation Hub (942
 Olive Street). Invited guests included: Business Oregon, the city of Eugene, Economic
 Development, Huerto/Centro/DTL (merged org), SBDC Lane County, SBDC Linn Benton
 Community College, local entrepreneurs, and WorkSource Oregon Lane.
- Luna Jimenez Institute for Social Transformation, Centering Relationships for Systems Change. Partners from DHS, United Way of Lane County, the city of Eugene, St. Vincent de Paul, Lane County Department of Health & Human Services (HHS), Connected Lane County, and Pivot Architecture participated in a three-day virtual workshop with teams across the country. During this workshop, participants learned how fear and power imbalances impact our capacity to communicate and connect with people different from us, and what it means to remain "value-based" in our actions, even in the face of conflict, disagreement, and dominance. Participants learned tools and frameworks for value-based movement building and transformational systems change.

Workshop Desired Outcomes:

- o Explore how fear impacts our ability to understand and collaborate with others;
- Learn a framework to increase skillful communication, even with people we disagree with;
- Recognize how assessing context increases our capacity to have a flexible response in each present moment;
- o Experience the power of healing in community using LJIST's core listening practice;
- Deepen our understanding of LJIST's core theory of social transformation and its application to ending racism.
- Lane County Poverty and Homelessness Board (PHB), Employment Workgroup. Deanna Strahan-Wilson, Manager of Workforce Programs, Lane County HHS, Brittany Quick-Warner, President/CEO, Eugene Area Chamber of Commerce, Heather Seilicki, and Sylvia Berry, Homeless Initiative Managing Consultant came together to establish a sub-group to better align efforts between the PHB Employment Workgroup and the Eugene Chamber of Commerce, <u>Business Leaders Taskforce</u>. The goal of this sub-committee is to help minimize any duplicative efforts between groups, co-create strategies to increase the capacity of homeless services providers (sector based), and increase employment opportunities for people experiencing homelessness.
- Onward Eugene has been designated as the Business Service provider of Lane Workforce
 Partnership, managing our existing and emerging Sector Strategy efforts and initiatives. This
 includes providing leadership to Lane County industry sector partnerships, connecting the
 workforce with industry opportunities, helping grow the entrepreneurial ecosystem, delivering
 the EUG launchpad program, supporting the development and content curation of the Open for
 Business, Sector Strategies series, expanding our On-the-Job Training (OJT) program, and
 supporting the integration of our Business services cross agencies. In an effort to be more
 engaging and inclusive with outreach, Onward Eugene created an animated video showing the
 diversity of jobs, people, and work settings that OJT supports. OJT brochure.

Collaborate in an Effort to Optimize the Utilization and Impact of Local Workforce Resources

Lane Workforce Partnership has been convening the local workforce leadership team, comprised of DHS, Vocational Rehabilitation, Oregon Employment Department, Lane County Health and Human Services, and Lane Community College in order to develop an MOU and Cost Sharing Agreement. Through the MOU, workforce services are provided through one comprehensive and four affiliate centers.

- WorkSource Eugene Comprehensive
- WorkSource Florence Affiliate
- WorkSource Springfield Affiliate
- o WorkSource McKenzie Affiliate
- WorkSource Cottage Grove Affiliate

For informational purposes, the most recent State performance report for Lane Workforce Partnership can be found on the following pages. This is the official performance outcomes report prepared by the State of Oregon. This report contains data on numbers served in each of our program, characteristics of those served, and performance outcomes. The report is separated by WIOA Adult, Dislocated Workers and Youth.
